

MJR-BIO

The Best Just Got Better

Enjoy confidence and security through biometric technology integrated with Amano's powerful computerized time recorder. Eliminate buddy punching while automatically calculating employee hours right on the time card.

Features

- 250 employee capacity
- No more buddy punching — biometric ID (fingerprint recognition) links your employee directly to time card enrollment
- Calculates and accumulates hours worked
- Accepts unlimited number of punches per day
- Accommodates two overtime categories
- Flexible rounding and grace periods
- Programmable automatic break and/or lunch deductions
- Accommodates paid breaks
- Split shift calculation capability
- Individual lockout capability
- Data correction for previous & current pay period
- Supports random selection of employees for fingerprint verification
- “Black-list” for failed verification when random selection is active
- Non-verification list for employees with difficulty registering their fingerprint

Benefits

- Accommodates wide range of business sizes
- Controls employee time theft and eliminates fraud
- Eliminates calculation errors
- Eliminates overpayment automatically
- Eliminates repetitive manual entry or error
- Allows you to track breaks without the need for manual adjustments
- Track two different shifts in the same day for the same employee
- Missed punches will not affect the automatic calculation — simply edit and correct, and the time recorder easily adapts

The MJR-BIO combines a sophisticated, automatic calculating time recorder with fingerprint recognition security — an industry first! The system eliminates “buddy punching” while providing a comprehensive and secure method of accurately accounting for employee labor costs. No other stand-alone time recorder can positively identify each employee and give you the added savings of eliminating time theft and fraud.

SPECIFICATIONS

MJR-BIO

Computerized Time Recorder

Specifications

Power Supply:	120 VAC ± 10%
Ambient Temperature:	14°F - 104°F (-10°C - 40°C)
Humidity:	20% - 90% (No Condensation)
Power Consumption:	Normal 25VA, Maximum 75VA
Dimensions:	13-1/2" H x 9-1/2" W x 8" D (34.3 cm H x 24.1 cm W x 20.3 cm D)
Weight:	17.25 lbs. (7.76 kg)
Employee Capacity:	250 Employees
Ribbon:	Two color cartridge
Ni-CD Battery Backup:	Retains data for up to 72 hours
Mounting:	Wall or table mount
Full Power Reserve:	(Optional) 4 hours or 200 punches
Signals:	(Optional) Rings up to 30 programmable signal times

Features

- 1 If the employee is chosen for the "Non-Verification List" a '.' will be printed in the "No." field next to the first punch of the pay period.
- 2 If "Random Fingerprint Verification" is active and the punch has not been selected for verification, a '.' will be printed in the "CODE" field.
- 3 If the clock is in "Fingerprint Disable Mode," all punches will be printed with a 'B' in the "CODE" field. A supervisor can activate "Fingerprint Disable Mode" with their "Fingerprint Verification Disable/Enable Authorization Card."
- 4 If the supervisor programs a maximum number of scan attempts, and the employee reaches this number of attempts without successful verification, an 'E' will be printed in the "CODE" field.
